PROFILE SUMMARY

A motivated BSIT student with foundational knowledge in hardware troubleshooting, software installation, and network essentials. I am passionate about solving technical problems and enhancing my skills in programming and system operations. I aim to contribute to an organization where I can apply my technical abilities while gaining real-world IT experience.

EDUCATION AND CERTIFICATIONS

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

PHINMA College Cagayan de Oro City | August 2025

- Specializing in System Development

WORK EXPERIENCE

PROJECTS

Exercise Recommendation System

Personal Project - October 2025 - November 2025

Python | Console Based

Developed a python console based Exercise recommendation system that helps user create a workout plan based on their information they input.

- Designed and implemented a BMI calculator to generate personalized workout recommendations.
- Added multiple fitness goals (Weight Loss, Muscle Gain, Flexibility, Strength Training)
- Developed a weekly workout plan generator based on user input and difficulty level.
